Some OEM batteries are smaller. Discard the battery insulation cover if it is too small to fit the service battery.

[^]This battery is only stocked at the Battery Redistribution Center, not your local Distributor. Please add an additional one to two days to the normal delivery process to receive this battery.

⁺Vehicle's trunk-installed battery vent plug must be transferred from OEM battery to service battery. Install vehicle's vent hose to the service battery's right vent hole.

HOW TO ORDER

- Place your order using your normal DCS ordering process.
- Orders are transmitted overnight to Interstate Batteries.®
- Emergency Orders:** For emergency delivery, enter your order using the normal DCS ordering process, then either contact your Interstate Distributor or call Interstate Batteries at 800.541.8419, ext. 6889 and ask to speak to the Hyundai Account Specialist. Give your Dealer number to the Interstate Distributor or the Account Specialist and indicate that it is an emergency order. You should receive your battery the same day or the next day in most metropolitan areas.

DELIVERY

- Orders will be delivered to your Dealership within five (5) working days from date of receipt by Interstate Batteries.
- Your assigned Interstate Batteries Route Sales Manager will deliver all Hyundai Genuine Replacement Batteries directly to your Dealership.
- Batteries will arrive fully charged, load tested and with protective terminal caps.
- Before leaving, the Route Sales Manager will ask the Hyundai Parts Manager to inspect all batteries and to provide an authorized signature on a Dealer Order Delivery Document (DODD).
- A copy of the DODD will be signed by the Dealer and left as the official receipt. It will contain a record of the return cores.

CORE CHARGES AND CREDITS

- The Hyundai battery price is based on a one-for-one exchange. Dealers must return one (1) spent core for every Hyundai battery delivered. A core charge of \$15 will be assessed for each core not returned. Excess cores up to a one-for-one exchange annually can be removed, and you will receive a \$15 credit per core. Core price is subject to change without notice.
- Upon delivery of product, the Interstate Batteries Route Sales Manager will collect the spent cores, provide a receipt and forward the information to Hyundai Motor America for debit or credit to your monthly Parts Statement.
- All cores will be picked up each time a delivery is made by the Interstate Batteries Route Sales Manager and noted on the DODD.

WARRANTY

Hyundai Genuine Replacement Batteries are covered by a 48-month prorated warranty. For the first 12 months, Hyundai Motor America covers the full Dealer net cost of the battery, applicable parts handling allowance and labor for Dealer-installed replacement batteries. Labor is not covered for over-the-counter sales. After 12 months, Hyundai Motor America prorates the Dealer net cost of the battery. The battery proration chart in the Hyundai Warranty Policy and Procedures Manual or the Hyundai Parts Counter Reference Guide shows the amount Hyundai Motor America will pay and the amount the customer must pay. Labor is not covered by the warranty after the initial 12-month period.

CORE REMOVAL

The Hyundai Battery program includes pickup of battery cores for proper disposal. This program is based on a one-for-one exchange. Its primary objective is aimed at minimizing the environmental and safety risk associated with the improper storage, handling and transportation of battery cores.

INVENTORY ROTATION

As part of the Hyundai Battery program, batteries more than 90 days old and up to one year old are automatically rotated.

BILLING

All orders are billed and invoiced on your parts statement. Any and all applicable state excise taxes will be added.

DEALER SUPPORT HOTLINE

Contact your Interstate Distributor with any questions regarding your account, or call Interstate Batteries at 800.541.8419, ext. 6889 (8 a.m. to 5 p.m. Central) to speak to the Hyundai Account Specialist.
